NOTE: Installation Instructions on reverse side. When towing snowmobile, make certain cover is snugly secured, and observe all speed limits.

Dir. TY3923-E9

Litho in U.S.A

INSTALLATION INSTRUCTIONS
FOR TY9444 SNOWMOBILE COVER

1. Install cover, starting at front, over bumper and hood, then over windshield and handlebar.
2. Extend cover over back of seat.
3. With cover in place snugly, place top strap (A) under snow flap and buckle securely. Then place bottom strap (B) under snow flap and buckle securely. Tie excess strap into a knot.

IMPORTANT: Unbuckle straps if snowmobile is to be rolled without removing cover.

4. Sewn loops on each side of cover are for additional securing (customer furnished).

Cover may be laundered in lukewarm water and mild soap.

To prevent fading, do not subject cover to prolonged periods of direct exposure to summer sun.
