# President's Message

---

On behalf of the Board of Directors, I would like to personally welcome everyone to the 51st annual Canadian Power Toboggan Championships. Last year we celebrated a milestone: 50 years of racing, which we are very grateful for, thanks to the dedication of our racers, volunteers and sponsors. The dedication of these participants truly reflects a premiere event that we are all proud of, and we look forward to it moving forward in the next 50 years. The success of the world's oldest organized oval snowmobile race is truly a result of our dedicated volunteers, racers, sponsors and race fans. The continued support of the Town of Beausejour and the RM of Brokenhead is also a key factor in the development of our racing venue and we are greatly indebted to them.

I would like to thank the racers who have travelled from far and wide for providing us with a spectacular racing show. It is without a doubt their skill and performance that creates hours of professional racing entertainment for this world class event.

On behalf of the CPTC Board of Directors, I would like to welcome everyone to Beausejour for our 51st oval snowmobile races. Your continued support of this event is greatly appreciated. Sit back, relax, and more importantly participate in this weekend of exciting races and festivities.

# Proclamation

*WHEREAS the Town of Beausejour is the Snowmobile Capital of Canada; and*

*WHEREAS numerous International Snowmobile Races are held within the Town of Beausejour; and*

*WHEREAS the Town of Beausejour wishes to encourage the citizens, businesses and organizations to become involved in Snowmobile Month.*

*Under the Authority vested in me, I, Brad Saluk, Mayor of the Town of Beausejour, declare the month of March, 2013 as "Snowmobile Month".*

*Under my Hand, at the Mayor's Office this 12th day of February, A.D. 2012.*

## Mayor's Message

*On behalf of Council and the Town of Beausejour residents, I'd like to congratulate the Canadian Power Toboggan Championships on their 51st year of racing. The Town of Beausejour is extremely fortunate to be the home of the oldest continually-running snowmobile race in the world. Racers and spectators have come from all over North America to experience one of the greatest snowmobile racing events, and we hope that you too will share this spectacular experience not only this year, but for many more years to come.*

*A huge thank-you to all of the volunteers, as without them, none of this would be possible. So much time and hard work is required to make the Canadian Power Toboggan Championships a success each and every year. Again thank-you.*

*For the participants, may you have an incredible race; and for the spectators, we hope that your visit to our community is unforgettable.*

**Brad Saluk**  
Mayor of the Town of Beausejour

*I am very proud that our community is hosting the 51st Annual Canadian Power Toboggan Championships.*

*The CPTC is a world-class event that brings a lot of excitement to our strong and diverse community. I believe its success has a lot to do with the quality and number of dedicated volunteers and supporters of this event.*

*The RM of Brokenhead has been and is a strong supporter of the CPTC and I believe this event enhances the quality of life for our residents.*

*Also, this championship event wouldn't be what it is today if not for you, the fans, coming back year after year to experience these great races.*

*I would also like to thank our local racers and teams, along with all of the others from across Canada and the United States, who I know will help create wonderful memories for all the spectators and fans.*

*On behalf of all of Council and the 4639 residents of the Rural Municipality of Brokenhead, including the villages of Tyndall and Garson, I wish each and everyone participating in this weekends' world-class event a safe and successful race weekend.*

*Thank you again and have fun!*

*Yours truly, Glen Dudeck  
Reeve - R.M. of Brokenhead*

For unparalleled yield and quality in your wheat and barley crops, choose Prosaro® fungicide. It delivers premium disease protection against fusarium head blight (FHB), reduces DON levels and controls leaf diseases.

Two leading actives – tebuconazole for fast activity and prothioconazole for future defense – bring curative and preventative properties to your crop. Prosaro is truly the complete package for protecting both cereal crops and your peace of mind.

## **CPTC KIDS SNOWMOBILE RACING 2012 / 2013**

The club was formed in December, 2008 with its first race starting in March, 2009 as part of CPTC March events. We currently have a group of around 13 kids racing Kitty Cat and 120cc snowmobiles, with boys and girls aged 4 to 14 years of age. We teach the kids safe driving and racing practices as well as good sportsmanship and friendship to grow together to some day become a big track racer. We offer the kids and their families something fun to do in the winter months, and to help those who want to make it big some day and move up to the big track safely as possible.

We host 4 races every season at the CPTC Raceplex in Beausejour, MB. with around 15 different classes. These races take place December, January, February and of course March. By having recreational and competitive classes in both Kitty Cat and 120 cc on our ice and snow tracks, it gives every racer a chance to excel every year and its a great experience to watch the kids grow and develop their own skills accordingly.

Some of our current races are from Beausejour, Fiona Hyde, Ian and Tyson Mickey, Jordan and Katlyne Sobetski, Hailey and Cole Thomas, Lac Du Bonnet - Ryan Miller, Cooks Creek - Joey VanLinge, Ste. Anne - Kaiden Grabowski, Anola - Cameron and Matthew Lidgett.

We as a club would like to take this time to say thank you to our supporters CPTC Board of Directors, DJ Saluk and Sobetski Enterprises for helping out and making this kids race season a success. Also thank you to all our parents, grandparents and other volunteers for making this possible. Thank you!

For more information about the CPTC kids club you are welcome to go to the website of [www.cptcracing.com](http://www.cptcracing.com) and click on the "Kids Racing" link for results, meetings, race dates and contacts to join our club or have any questions.

# Thank you to all Volunteers

The CPTC was founded 51 years ago by volunteers and they have kept the tradition alive. The races are an astonishing testament to their perseverance and dedication. If you encounter a volunteer, please take the time to thank them for doing such a great job! If you would like to help, please contact us through our website [www.cptcracing.com](http://www.cptcracing.com). We would love to have you along.

## Pro Formula 500 Winner 2012

## VISIT THE RACE PITS!

**Admission Only  
\$5.00**

Please take the time to visit the pits. It is an exciting place to be. The frenzy of race preparation is alive in the sights, sounds and the smell of these high-performance sleds. You'll get to mingle with the teams. Bring your camera to capture the excitement! You'll be glad you did!

# Pro Formula 500

The formula 500 class was developed by John Hooper as an affordable entry level class for people to get into ice oval snowmobile racing. The machines in this class can be made to look like a Sprint or a Champ race sled but must originate from a 1989 - 1992 Polaris 500 Indy. The minimum weight for this class is 400 lbs.

The engine must be the stock 500 cc Polaris motor with no modifications allowed to the motor. The motor must use the stock 38 mm factory-supplied carburetors. The cooling system must be stock with no modifications allowed. The stock exhaust system must be OEM. Welded-on after muffler and internal stinger pipe may be removed and replaced with any size stinger. The stock exhaust "Y" pipe must be used without modification.

The stock P85 clutch must be used. The stock suspension must be used with the stock shocks. No gas shocks are allowed. The stock chain case and brakes must be utilized. The front and rear suspension can be reinforced but must be the stock parts.

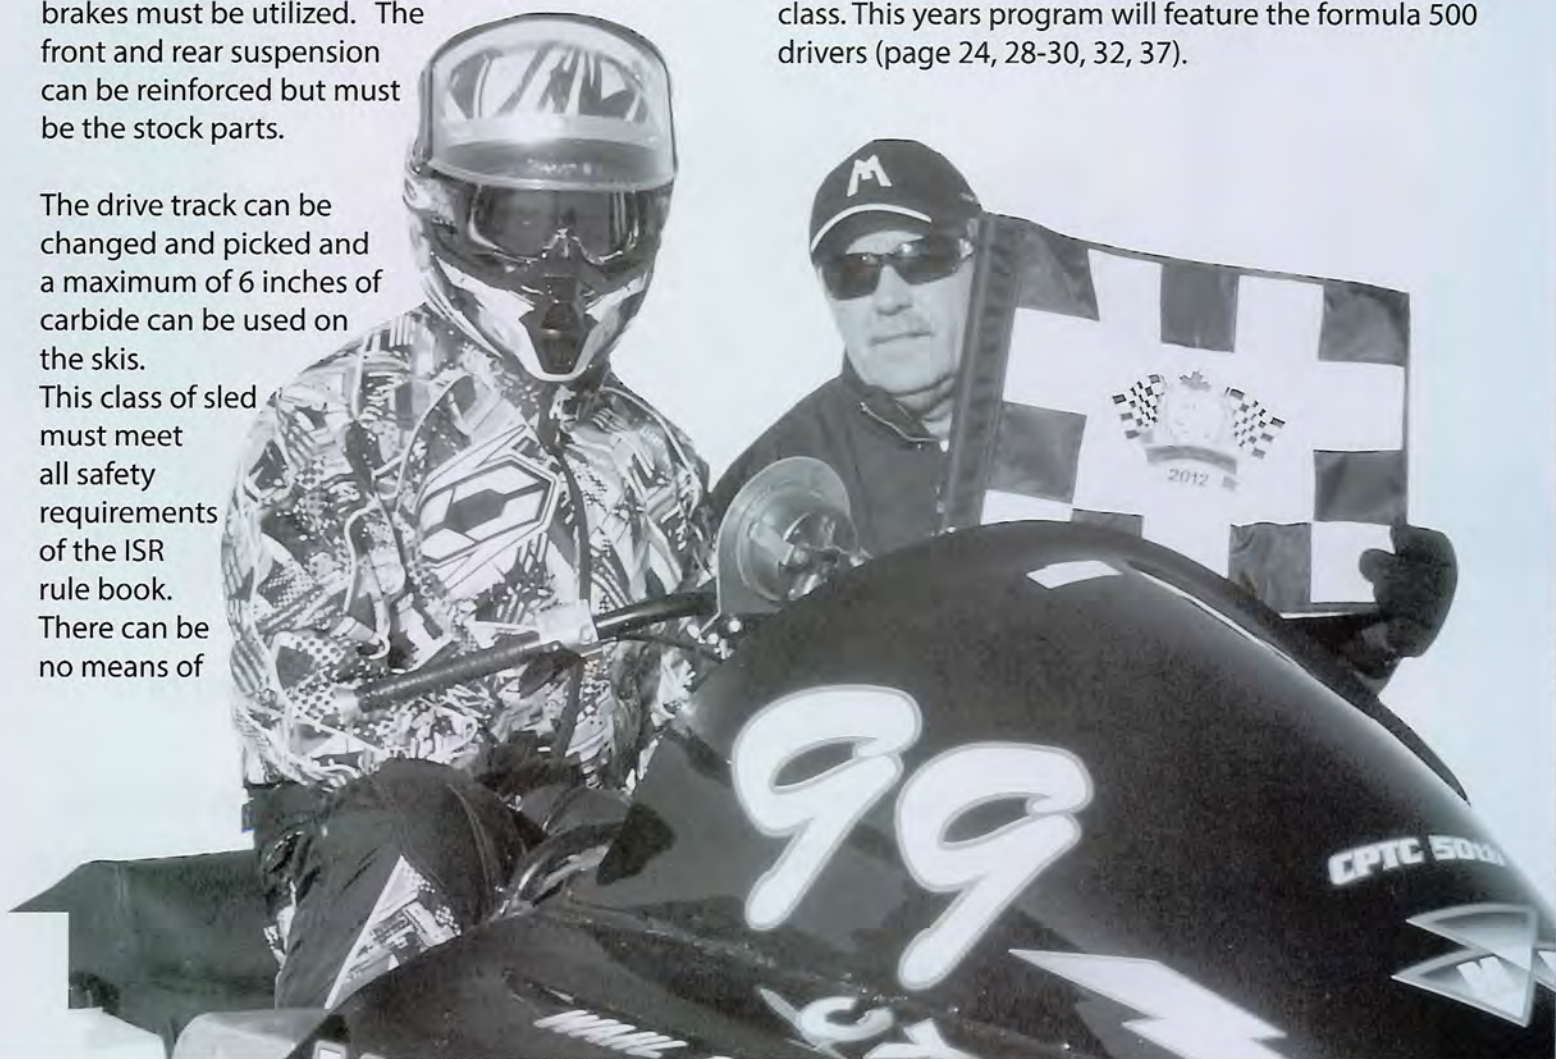

The drive track can be changed and picked and a maximum of 6 inches of carbide can be used on the skis.

This class of sled must meet all safety requirements of the ISR rule book. There can be no means of

data acquisition used on this class of race sled. This means no data-recording computers, recall tachs, etc.

The rules of the Formula 500 class do not allow for a great number of parts to be modified which helps achieve the goal of keeping this class affordable. It does, however, allow the racer to fine-tune the engine, clutching and handling to make a sled that is a lot of fun to race. This is borne out by the number of racers this class has attracted.

There are three levels of the Formula 500 class based on driver ability: Sport Formula 500, for the novice driver; Semi-Pro Formula 500, as the name implies for the semi-pro driver; and Pro Formula 500, for the most experienced of drivers. If a racer is entered in Sport Formula 500 they can also enter Semi-Pro Formula 500, but not Pro Formula 500. If a racer enters Pro Formula 500, they can enter Semi-Pro Formula 500 as well, but not Sport Formula 500. This ensures that Sport Formula 500 is truly a beginner's class. This year's program will feature the formula 500 drivers (page 24, 28-30, 32, 37).

# JERRY BUNKE MEMORIAL CHALLENGE

Jerry Bunke was a member of the famed Polaris "Midnight Blue Express" race team that competed in the Sno Pro circuit of the late '70s. He tragically lost his life in a racing accident in Beausejour, Manitoba in 1978. To honour the dedication, perseverance and professionalism that Jerry displayed during his career, we at CPTC are pleased to present the annual JERRY BUNKE MEMORIAL CHALLENGE. It is awarded to the driver in the Vintage IFS class who accumulates the highest point total over the weekend of racing. A trophy presentation and a cash prize of \$1,000 will be awarded! The winner of last year's award was Tyler Obie of Beausejour, MB. Watch for the intense action in pursuit of this most prestigious award!

*Tyler Obie*

# Breakthrough performance

**Enhanced nodulation, excellent plant growth, and extraordinary ROI.**

Optimize® combines a quality nitrogen inoculant with Novozymes' LCO Promoter Technology®. This unique LCO molecule drives communication between the soybean plant and the nitrogen inoculant independent of soil conditions. The result? Enhanced nutritional capabilities that produce earlier, better nodulation and ultimately increased yields and higher ROI.

Optimize®

LCO Promoter Technology®

Novozymes is the world leader in bioinnovation. Together with customers across a broad array of industries we create tomorrow's industrial biosolutions, improving our customers' business and the use of our planet's resources. Read more at [www.novozymes.com](http://www.novozymes.com)

# NEW EVEREST® 2.0. RELENTLESS ON WEEDS. EASY ON WHEAT.

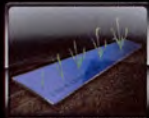

A new formulation with advanced safener technology built in gives new EVEREST® 2.0 an extra measure of crop safety in a wide range of conditions. EVEREST 2.0 is easy on wheat, but relentless on weeds, giving you **Flush after flush™** control of green foxtail, wild oat and key broadleaf weeds. It's highly concentrated, so you'll use less product. And with a flexible application window and exceptional tank mixability, nothing is easier to use. EVEREST 2.0. What a difference one generation can make.

# P + N = Bigger yields

**Greater phosphate availability and more fixed nitrogen.  
An inoculant that focuses on bigger soybean yields.**

Every grower wants higher soybean yields, but the problem is how to get them. TagTeam® is the simple solution. *MultiAction*®  
TagTeam is the only soybean inoculant that makes soil and fertilizer phosphate plant-available to fix more nitrogen.

Get bigger soybean yields. Get TagTeam.

The miracles of science™

## TUNE YOUR DISEASE CONTROL TO THE WAY YOU FARM.

New DuPont™ Acapela™ fungicide has a one-of-a-kind action that puts you in control, delivering reliable protection under a variety of conditions.

*Multiple disease threats?* Acapela™ works on many important diseases, including leaf rust, powdery mildew, Septoria leaf blotch and tan spot, for healthier crops and higher yield potential.

*Inconsistent staging?* Acapela™ features best-in-class movement properties for superior coverage. It travels across, into and around the leaf with strong preventative, residual and post-infection action.

*Weather threatening?* Spray away and count on Acapela™ for excellent rainfastness if you need it.

**New DuPont™ Acapela™ fungicide. Like music to your crop.**

**For more information about Acapela™, please visit [acapela.dupont.ca](http://acapela.dupont.ca)**

**DuPont™  
Acapela™**

As with all crop protection products, read and follow label instructions carefully.

Open up to your best soybean season ever.

ALL SEASON STRONG

With generations of experience, you can trust DEKALB® soybeans to bring you a combination of industry leading genetics and traits.

The result? You get more beans per pod, more bushels per acre. Contact your DEKALB® dealer, and open up to higher soybean yield potential.

[DEKALB.ca](http://DEKALB.ca)

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Details of these requirements can be found in the Trait Stewardship Responsibilities Notice to Farmers printed in this publication ©2012 Monsanto Canada, Inc.

**PURCHASE** at least 2 of the following crop protection products and determine your qualifying acres.

**Clearfield**<sup>®</sup> crops  
matched with  
**Clearfield** chemistry

**Herbicides**

**AgCelence**<sup>™</sup>

TOTAL your qualifying acres based on the crop protection products you've purchased from above.	SAVE on the BASF products below.		
	All BASF seed treatments	+	All BASF herbicides Each Clearfield crop matched with Clearfield chemistry acre = 2 qualifying acres.
400 - 1399	15%	+	HEADLINE <sup>®</sup> LANCE <sup>®</sup> CARAMBA <sup>®</sup> fungicides Multiply your qualifying acres by 2.
1400 - 3599	20%	+	
3600+	25%	+	
			<b>BONUS:</b> Until January 31, 2013 each Clearfield crop matched with Clearfield chemistry acre = 3 qualifying acres.
			<b>BONUS:</b> Purchase an AgCelence product and increase your LANCE rebate by 8%.

Use our online calculator to determine your projected 2013 AgSolutions<sup>®</sup> Rewards. Access it at [agsolutions.ca](http://agsolutions.ca) or contact AgSolutions Customer Care at 1-877-371-BASF (2273) to find out how AgSolutions Rewards can work for you.

# FROM RECREATION TO RACING...

"I've been using XL-S oil in my sleds for years - both on and off the track - and I like the way it performs in all conditions. It handles the temperature and shock load that racing can hand out and I've never had any engine or power valve failures when using it. If XL-S can handle racing it can handle the trail."

# XL-S

## SYNTHETIC 2-CYCLE INJECTION ENGINE OIL
